Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after 15th May 1938. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, for the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

Name of Depot	Date of sale	Teak logs and Bps.	Honne logs and Bps.	Yottiga logs and Bps.	Mathi logs and Bps.	Teak sizes	Rejected teak sleepers.	Nandi	Bite logs	Teak reepers	Remarks
		C.ft.	C.ft.	C.ft.	C.ft.	C.ft.	No.	C.ft.	C.ft.	R.ft.	
1. Mysore Wood Yard	26th July 1937	9,000	2,000	360	1,300	2,513	309	150	2,322	49,095	More or less.

N.B.—If the sale is not concluded on the day notified, it will be continued and concluded on the next day.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the Department will not be allowed to bid at the sales.

In the case of purchases not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Chief Conservator and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officer only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo, showing the total value and the purchase made by him. Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of all timber purchased shall be paid for within 30 days after the date of sale or within 15 days after the date of the notice of confirmation of the sale, whichever is later. In case of purchases of above Rs. 1,000 in value, the purchaser shall be permitted to pay up the balance in instalments of not less than Rs. 1,000, provided the full value is paid not later than the 15th May 1938. The money shall be paid into such Treasury as the District Forest Officer may direct, within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any

prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 6¼ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 day after the date fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

District Forest Officer.

Abstract Notification dated the 6th July 1937.

The attention of the public is hereby invited to the detailed notification, dated 6th July 1937, calling for tenders for the uprootal and rough-dressing of sandalwood and ground-hidden roots and the carting of the same to the Sandalwood Oil Factory, Mysore, during the year 1937-38, published on pages 1115-1116, Part VI of the *Mysore Gazette*, dated 15th July 1937.

K. REVANNA,
District Forest Officer.

HASSAN DISTRICT.

Notification dated 16th July 1937.

Tenders will be received by the District Forest Officer, Hassan, at the District Forest Office, Hassan, up to 4 P.M., on the 20th August 1937, for the Koti preparation of sandalwood during the year 1937-38. The approximate quantity to be prepared will be 250 tons (outturn) more or less.

2. Tenders should be registered, insured and superscribed as "*Tender for the koti preparation of Sandalwood.*" The tender should be accompanied by a deposit of Rs. 50 (rupees fifty) in currency notes. The rate to be quoted should be per ton of wood. (Please see note below).

3. The District Forest Officer will be at liberty to accept or reject the lowest or any other tender without assigning any reason therefor.

4. Within eight days from the date of intimation of the fact of approval, the successful tenderer, shall furnish a security of Rs. 50 (fifty) including the initial deposit referred to above in the shape of Mysore Government Savings Bank Account, duly pledged in favour of the District Forest Officer, Hassan District, and execute an agreement on a duly stamped paper, binding himself to observe the following conditions.

5. The earnest deposit money in the case of all unsuccessful tenderers will be duly returned to them in person or at their cost, if by post.

Conditions.

(*a*) That the contractor shall be ever ready during the period of contract to employ as many number of coolies who know how to work at sandal so as to turn out the allotted quantity every week, fortnight or month, as may be assigned.

(*b*) That in case the contractor fails to employ the number of coolies required so as to turn out the allotted quantity of prepared wood at any time, the officer in charge of the Koti shall make his own arrangements for the preparation of the wood by employing coolies, making the contractor liable to pay up the cost, even though it may happen to be extra. The contract will also be liable for cancellation at the discretion of the District Forest Officer on account of default.

(*c*) The Koti preparation work will be commenced at 8 A.M., and continued till 6 P.M., every day with an interval of an hour or two from 12 NOON.

(*d*) The available tools in the Koti shall be spared for work and in case the number of coolies is more than that of tools available, the contractor should himself provide the extra tools required. The tools spared from the Government should be returned in tact, as otherwise, the cost thereof will be deducted from out of the contractor's dues or from his security deposit amount.

(*e*) That the contractor should be present at the Sandal Koti at all times the preparation is going on and he shall be solely responsible for all acts and omissions by his coolies.

(*f*) That the Koti preparation will be done in strict conformity with the assortment rules and as per directions of the officer in charge of the Koti. That the rough wood to be given will be *lotwar* and until such lots once given are all fully worked out and assorted, no further fresh lots will be given out for assortment.

(*g*) That payments will be made to the contractor after the wood is prepared, calssified, weighed, and put into lots in the Koti lot room once every month, generally at the close of the month. The assortment includes the putting up into lots of white wood of different classes also.

(*h*) That no smoking will be permitted anywhere in the precincts of the Sandal Koti building and that in case of danger to the sandalwood by fire, the contractor will be liable to the Department for damages which will be recoverable as if it were an arrear of land revenue.

(*i*) That the contractor and his coolies will submit to the disciplinary measures that may have to be enforced by the Koti Officer during working hours.

(*j*) That for failure to fulfil all or any of the foregoing conditions, the contractor shall be liable for such fine as the District Forest Officer at his discretion may levy in addition to the forfeiture of the security deposit to Government which will be recoverable as an arrear of land revenue.

N.B.—As a rule, higher rates are payable for the superior classes of prepared wood and less for Milva-chilta. Hence two different rates should be quoted in the tender, one for the outturn of superior classes and the other for Milva-chilta, since the object aimed at is that greater care should be taken by the contractor to see that the Koti preparation work is conducted on principles of economy so as not to waste heartwood by conversion into chips. No charges are payable on the Milva-chilta if the outturn of the same is 15 per cent and more than the total production of good wood.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Conservator and in other cases to that of the District Forest Officer, subject to the following conditions :—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officer only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo, showing the total value and the purchase made by him. Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of timber purchased shall be paid for within six days after the date of sale or within three days after the date of the notice of confirmation of the sale, whichever is earlier. The money shall be paid into such Treasury as the District Forest Officer may direct, within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5 *supra*. Interest at 6¼ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

(*f*) That the Koti preparation will be done in strict conformity with the assortment rules and as per directions of the officer in charge of the Koti. That the rough wood to be given will be *lotwar* and until such lots once given are all fully worked out and assorted, no further fresh lots will be given out for assortment.

(*g*) That payments will be made to the contractor after the wood is prepared, classified, weighed, and put into lots in the Koti lot room once every month, generally at the close of the month. The assortment includes the putting up into lots of white wood of different classes also.

(*h*) That no smoking will be permitted anywhere in the precincts of the Sandal Koti building and that in case of danger to the sandalwood by fire, the contractor will be liable to the Department for damages which will be recoverable as if it were an arrear of land revenue.

(*i*) That the contractor and his coolies will submit to the disciplinary measures that may have to be enforced by the Koti Officer during working hours.

(*j*) That for failure to fulfil all or any of the foregoing conditions, the contractor shall be liable for such fine as the District Forest Officer at his discretion may levy in addition to the forfeiture of the security deposit to Government which will be recoverable as an arrear of land revenue.

(*k*) Axes should not be used for the preparation of Sandalwood.

N.B.—As a rule, higher rates are payable for the superior classes of prepared wood and less for Milva-chilta. Hence two different rates should be quoted in the tender, one for the outturn of superior classes and the other for Milva-chilta, since the object aimed at is that greater care should be taken by the contractor to see that the Koti preparation work is conducted on principles of economy so as not to waste heartwood by conversion into chips. No charges are payable on the Milva-chilta if the outturn of the same is 15 per cent and more in proportion to the total production of good wood.

If the collection work of the contractor is slack during any fortnight and if, in the opinion of the District Forest Officer, the contractor is not likely to discharge his obligations satisfactorily, the District Forest Officer will be at liberty either to cancel the contract at once, forfeit the security and make other arrangements for the collection or without cancelling the contract make additional arrangements to supplement the work at his discretion. Any extra expenditure which the department has to incur for this purpose will be made good by the contractor.

(*g*) All good and sound Balagi poles passed by the Range Officer, Agumbe, should be carted to the Shimoga Timber Depot or the Wood Preservation Plant, Bhadravati, as noted in the annexed schedule.

(*h*) The present contract is for the period ending with 31st March 1938 from the date of acceptance of the tender.

(*i*) The minimum quantities to be carted to the Depots by the contractor or contractors will be as follows :—

"One-fourth of the contracted quantity by the end of December 1937 and the remaining quantity by the end of March 1938. The contractor should cart the proportionate number of contracted poles every fortnight so as to keep up a steady progress in the carting work. The contractor must be able to cart a large number at any time when called upon to do so. Failure on the part of the contractor to cart the poles, as noted above, entails the forfeiture of the whole or such portion of the security as the District Forest Officer deems fit. If the carting work of the contractor is slack during any fortnight and if, in the opinion of the District Forest Officer, the contractor is not likely to discharge his obligations satisfactorily, the District Forest Officer will be at liberty either to cancel the contract at once, forfeit the security and make other arrangements for the carting or without cancelling the contract make additional arrangements to supplement the work at his discretion. Any extra expenditure which the department has to incur for this purpose will be made good by the contractor."

Any pole not reaching the Depot within one month of the issue of such passes will be treated as lost, and the value thereof recovered at the Wood Preservation Plant rates from the contractor from the amounts of the next bill due to him.

(*l*) In the matter of consigning different kinds of poles from time to time, the contractor should abide by the instructions of the Range Officer.

(*m*) The contractor, during the currency of his contract, shall not take up any other similar contracts.

(*o*) The contractor shall abide by the rules of the department as regards kindling of fire and hold himself responsible for any offence committed by him or his agents, employees or cartmen.

(*p*) The bills for carting should be supported by the Depot or Plant Receipts. The carting for one full month should be claimed in a single bill to be presented in the next month and no part payment will be allowed in the middle of the month. No claim for cart-hire not claimed within three months from the date of its becoming due will be paid unless the delay in claiming is satisfactorily explained.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale; and no timber shall be removed from the depot unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid. Interest at 6¼ per cent per annum will be levied on all arrears of amount permitted to be paid after the due dates.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7 *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. (*b*) No timber should be removed from the forest without obtaining a passport from the Forest Range Officer, or such other forest subordinate duly authorised by him.

(*c*) All timber for which passport has been obtained should be delivered to the Depot at the latest within one month of the issue of such pass. 6. Failure to comply with the condition 5 above or to agree to carry out the work in accordance with the specifications and agreements in force will entail forfeiture of the earnest money.

7. The earnest money of rejected tenders will be returned on submission of the receipt originally granted, along with an application to the Executive Engineer.

8. Copies of contract documents, schedules and drawings may be seen at any time at the Executive Engineer's Office, Mysore, on all working days, between 11 A.M. and 5 P.M. and may be obtained from that officer on payment of Rs. nil.

10. Any rates or lumpsum amounts for the items not called for, if tendered by the tenderer, will not be taken notice of. The rates for such items may be entered in a separate schedule with date and reasons for the same.

11. No alterations which are made by the tenderers in the tender form in the nomenclature of the items of work will be recognised and if corrections are made, the tenders are liable to rejection.

15. When once the rates tendered have been accepted, they will not be revised under any circumstances. In regard to items of work not tendered, the rates for the same will be calculated by the Executive Engineer, on the basis of current rates for materials and labour with a contractor's profit of 5 per cent as may be approved by the Superintending Engineer. This shall be final and legally binding on the tenderer.

16. The quantities given in the schedule are only approximate and the drawings shown to the contractor are only tentative and are liable to alterations, omissions, deductions, or additions, at the discretion of the Executive Engineer or his representative. The tendered rates will hold good for any quantity, whether higher or lower than those given in the enclosed schedule.

Tenders in the prescribed form obtainable from the Office of the Assistant Engineer, Headquarter Range, Mysore, on payment of rupee one for each form, should be addressed to the Assistant Engineer, Headquarter Range, and should be superscribed as "Tender for constructing Police Station Building in Doddapet Circle, Mysore." The name of the tenderer should also be superscribed on the sealed cover.

3. Each tender must be accompanied by a deposit of Rs. 1,500 only in cash or Government Security, Municipal Debentures, Post Office Cash Certificates, (at cash payment value at the time of deposits and not face value) as earnest money. The earnest money of the successful tenderer will be retained as cash security for the due fulfilment of the contract. (Cash amount will not carry any interest.) In case of the acceptance of the tender, an addition of the five per cent of the estimated amount as security deposit should be paid at the time of executing the agreement in the Public Works Department Form.

4. The tenders will be opened in the presence of such tenderers who wish to be present on 20th September 1937 at 4 P.M. The final acceptance of the tender will rest with the Superintending Engineer who does not bind himself to accept the lowest or any tender, or to assign any reasons whatever, for the rejection of any.

5. The name of the successful tenderer will be posted on the Notice Board in the Assistant Engineer's Office in due course. Within eight days of the acceptance of the tender, the successful tenderer will be required to execute an agreement in the departmental schedule contract form for the due fulfilment of the contract.

6. Failure to comply with the condition 5 above or to agree to carry out the work in accordance with the specifications and other agreements in force will entail forfeiture of the earnest money.

7. Copies of contract documents, estimates and drawings may be seen at any time at the Office of the Assistant Engineer, Headquarter Range, Mysore, on all working days between 11 A.M. and 5 P.M.

8. Specific rate should be given for each item in the Schedule, and the rates should be in rupees, annas and in multiples of three pies and expressed in words and figures.

9. Any rates or lumpsum amounts for the items not called for, if tendered by the tenderer, will not be taken notice of. The rates tendered should include all such lumpsum items.

10. No alterations which are made by the tenderers in the contract documents in the nomenclature of the sanctioned sub-heads will be recognised and if corrections are made the tenders will be liable to rejection.

12. No reference should be made to the Public Works Department current schedule of rates.

13. On the event of the tender being submitted by a firm, it must be signed separately and severally by each member thereof or in the event of absence of any partner, it must be signed on his behalf by a person holding power of attorney authorising him to do so.

14. When once the rates tendered have been accepted, they will not be revised under any circumstances. In regard to items of work not tendered, the rates to be proposed by the Assistant Engineer, Headquarter Range, Mysore, and approved by the Superintending Engineer shall be final and legally binding on the tenderer.

15. The quantities as estimated are only approximate and are liable to alterations, omissions, deductions or additions, at the discretion of the Assistant Engineer or his representative. The tendered rates will hold good for any quantity whether higher or lower than those estimated for.

16. The work should be completed as per departmental specifications for different items and handed over to the Public Works Department by the end of April 1938, failing which the Assistant Engineer may, at his discretion, levy a penalty up to Rs. 50 per day, which will be recovered from the contractor's outstandings for the period exceeded by him till the work is completed and handed over.

17. In all matters of dispute of any kind, not specially provided for in the agreement or of rates, penalties, measurements, quality of work, etc., the decision of the Chief Engineer shall be final and legally binding.

18. The earnest money of rejected tenders will be returned on surrender of the receipts originally granted, along with an application to the Assistant Engineer, Headquarter Range, Mysore.

19. No claims for damages for delays caused by officers of the department in the execution of the work will be considered, whatever may be the reason for such delays. Contractors should bear this in mind when tendering for work. Extension of time due to delays caused by the departmental officers will however be considered on the merits of each case.

20. The contract should not be sublet.

21. All materials, tools, plant and machinery, that will be supplied by the Assistant Engineer, in the interest of the work, shall be accepted by the tenderer at the rates fixed by the Assistant Engineer and the tenderer will pay the hire, etc., on machinery at the prescribed per cent per annum of the booked value of the tools and plant supplied from the date of taking over of tools and plant from the Stores to the date of return to the Stores, the dates considered being the dates of acknowledgments of the vouchers in each transaction.

N.B.—If the sale is not concluded on the day notified, it will be continued and concluded on the next day.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale but defaulters to the department will not be allowed to bid at the sales.

In the case of purchases not exceeding Rs. 200 in value, this initial deposit of Rs. 200 need not be insisted upon, provided that the full purchase money is paid in cash on the spot.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. Subject to the minima prices fixed in each case by the Chief Conservator of Forests (which will not be divulged), the highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers. Should any lot be disputed, it shall again be put up and sold.

4. Immediately after the lot is knocked down to him, the successful bidder shall sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as admission on his part of having bought such lot and of having accepted the terms of the sale as herein specified. All sales of which the amount exceeds Rs. 1,000 in each case are subject to the confirmation of the Conservator, and in other cases to that of the District Forest Officer, subject to the following conditions:—

(1) That the rate realised in a sale does not fall short of the average of the three previous sales by more than 5 per cent or is more than that realised at the previous sales.

(2) That the power of confirming sales up to the limit of Rs. 1,000 shall be exercised only in the case of timber.

(3) That the confirmation of sales is ordered by the District Forest Officer only after the payment of the full purchase money.

5. After conclusion of the sale, each purchaser will be furnished with a memo, showing the total value of the purchase made by him. Thereupon, each purchaser shall pay 10 per cent of the amount in cash to the officer conducting the sale and obtain in return from him a receipt vouching for the payment of one-tenth value as well as the initial deposit of Rs. 200. Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming, it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price so fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of the successful bidders being lodged in the Savings Bank as security deposit.

7. The full value of timber purchased shall be paid for within six days after the date of sale or within three days after the date of the notice of confirmation of the sale, whichever is earlier. The money shall be paid into such treasury as the District Forest Officer may direct within the time specified.

8. If the amount is not fully paid for by the purchaser before the dates fixed above, the initial deposit as well as the other moneys already paid in shall be forfeited to Government and all or any portion of the timber not fully paid for shall be resold at the risk of the purchaser in the manner prescribed for default of payment of one-tenth value in clause 5, *supra*. Interest at 6¼ per cent per annum will be levied on all arrears of amounts which are permitted to be paid after the due date.

9. No timber lot shall be permitted to be removed by the purchaser unless it has been paid for in full, calculated at the rates at which the timber is knocked down to him at the time of sale, excluding the 10 per cent deposit paid for the lot at the time of the sale, and no timber shall be removed from the depot, unless a permit is obtained from the Forest Officer in charge of the depot. The earnest money will not be adjusted towards the value of timber until 90 per cent of the purchase money over and above the security deposit has been paid.

10. Timber purchased should be removed as early as possible, and in no case should it be allowed to remain longer than 90 days after the dates fixed in clause 7, *supra*. Timber not removed after purchase will remain in the depot at the risk of the purchaser from the date of the confirmation of the sale.

11. If the timber is not removed within the time allowed, the same may, after ten days' notice to the purchaser, be sold in public auction and the proceeds will be given to the purchaser after defraying all the expenses in connection with the resale.

12. The deposit of Rs. 200 will remain as security for the due fulfilment of all and every one of the terms of sale, on the breach of any of which by the purchaser, the District Forest Officer shall be entitled to forfeit the deposit in whole or in part and in the event of such forfeiture, the sum so forfeited shall be immediately made good by the purchaser so long as the transaction is not finally closed. The security deposit or the balance thereof, if any, shall be returned to the purchaser after the full value of timber purchased has been paid for and the timber fully removed.

Sealed tenders are invited for the annual re-clearing of the Demarcation lines of the following Forests of the District during the year 1937-38 up to 2 P.M., on Friday the 22nd October 1937.

2. Tenders should be submitted in the form given below showing the rates per mile at which the lines will be cleared and debris burnt, separately for each Range.

3. Each tender must be accompanied by a deposit of Rs. 25 in Government Currency Notes as earnest money and must be sealed and superscribed as "Tender for the annual clearing of the Demarcation lines of the Forests of the Kolar District" failing which, it will be rejected.

4. Final acceptance of the tender will rest with the District Forest Officer, Kolar, or Chief Conservator of Forests in Mysore, Bangalore, who does not bind himself to accept the lowest or any other tender without assigning any reason therefor.

5. Within eight days of the receipt of the order of acceptance of the tender, the successful tenderer will be required to execute an agreement on a stamp paper of proper value, failing which, his offer will be cancelled and the earnest money forfeited.

6. The earnest money of the successful tenderers will be retained as security deposit for the due fulfilment of the conditions of the agreement and returned in whole or in part, as the case may be, after the termination of the period of the contract, and that of others returned after the results of the tenders are announced.

7. The tenderer must quote specific rates per mile for each forest and no approximate rate will be accepted.

Further Conditions.

BHADRAVATI DIVISION.

Notification dated the 24th September 1937.

The undermentioned quantities of timber will be sold by public auction under the following conditions at the following Depot by the District Forest Officer, or any other Officer deputed by him for the purpose on the dates noted below :—

Name of depot	Bite (Rosewood)		Date of sale

N.B.—The above quantities are only approximate.

The sale will be held from 8 A.M. to 12 noon and 2 P.M. to 5 P.M.

Conditions.

1. Each bidder shall place a deposit of Rs. 200 with the officer conducting the sale, but defaulters to the Department will not be allowed to bid at the sales.

In the case of purchasers of timber not exceeding Rs. 200 in value, full value thereof will be accepted if tendered on the spot and the payment of deposit in such cases will not be insisted upon.

2. Any person bidding at the sale may be required by the officer conducting the sale to state whether he is bidding on his own behalf or as an agent, and in the latter case, to produce a written authority duly signed by the principal.

3. The highest bidder shall ordinarily be the purchaser, but the officer conducting the sale can reject any bid or stop the sale at any stage without assigning any reason to the intending purchasers.

Should any purchaser fail to comply with this rule, the initial deposit of Rs. 200 shall at once be forfeited to Government and the officer conducting the sale shall be at liberty to resell the timber purchased by such defaulter who shall be required to make good any loss, but shall not participate in any profit from such resale. The amount due by such defaulter on account of loss from resale shall be recovered from him as a revenue demand under Section 79 of the Mysore Forest Regulation. In calculating such losses, the initial deposit forfeited to Government shall not be taken into account.

In cases of resales for default of payment of value where no bidders are forthcoming it will be open to the District Forest Officer to fix such price as may appear to him to be reasonable and to proceed for the recovery from the defaulter of the balance, if any, after deducting the price fixed from the original sale amount. A registered notice should be issued to the defaulter intimating the price fixed by the District Forest Officer for the unsold wood and the amount still due from him which will be recovered as arrears of land revenue.

6. The deposits tendered by the unsuccessful bidders shall be returned immediately after the sales are concluded, those of successful bidders being lodged in the Savings Bank as security deposit.
